

# Screwdrivers

## Anti-Rolloff

The hexagonal non-roll feature prevents any rolling away at the workplace.

## Laser Tip

Laser treatment creates a microrough surface on the tip of the blade. The drive end literally bites into the head of the screw. The advantages: less slipping, fewer scratches, higher torque transfer and less screwdriving effort.

## Handle Markings

Handle markings include a screw symbol and the size of the tip to help you find the right screwdriver in your tool bag or at the workplace.

## Kraftform Ergonomics

The Kraftform handle has been designed to fit snugly in your hand, making blisters and calluses a thing of the past even after long-term use. The hard materials used for the handle promote fast grip adjustments and prevent the skin from sticking to the handle. The softer, anti-slip zones facilitate zero-loss transfer of high forces. This is an unbeatable combination! Work is done with a flick of the wrist!

## Hex Plus Profile

The problem with hexagon socket screws is the easily "rounded" screw recess. This is caused by the sharp edges of the tool pressing against the inside of the screw profile. Gradual wear eventually grinds and destroys the head of the screw. Wera's Hex-Plus tools provide more contact surface inside the screw profile, which reduces the notching effect and ultimately the deformation of the screw. Hex-Plus tools can also transfer up to 20% more TORQUE.

## Extra Durable (Black Point)

The Wera Black Point tip and a refined hardening process guarantee a long service life and increased corrosion protection.

# Wera Nutdrivers

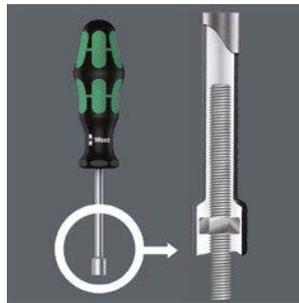

## Nutdrivers

Wera nutdrivers have the same Kraftform Plus handles as standard screwdrivers. Shafts are made of chrome-plated steel and are hollow to allow access to nuts on long screws. Available in inch and metric sets.

| Nutdrivers                  |  |         |
|-----------------------------|--|---------|
| Part Number                 | Description  | Price   |
| <a href="#">05345230055</a> | Wera nutdriver set. 7 pieces. Includes 3/16, 1/4, 5/16, 11/32, 3/8, 7/16 and 1/2 inch drivers with hollow shafts for clearing long threads. Manufacturer part number 345230. | \$43.00 |
| <a href="#">05029510055</a> | Wera nutdriver set. 7 pieces. Includes 5.0, 5.5, 6.0, 7.0, 8.0, 10.0 and 13.0 mm drivers with hollow shafts for clearing long threads. Manufacturer part number 029510.      | \$43.00 |

### Hollow shaft

A nutdriver with a hollow shaft is needed whenever there are nuts on long threaded screws or rods i.e., the threaded rod can slip into the hollow shaft, allowing engagement of the nut by the nutdriver.
